

February 12, 2020

The Spring LAAA sponsored NAAA Operation S.A.F.E Calibration Clinics will be held:

March 3 – 5, 2020 at LeGros Airport (3R2) Estherwood La.

These clinics are a coordinated effort between the LAAA, LDAF and the LSU Ag Center.

Registration Cost for LAAA Members:

- If paid *By March 2nd for the* LeGros Clinic:

\$300 per Aircraft for Three Analyses, Wet or Dry.

- If paid *After March 2nd for the* LeGros Clinic:

\$350 per Aircraft for Three Analyses, Wet or Dry.

Registration Cost for Non-Members:

- If paid *By March 2nd for the* LeGros Clinic:

\$450 per Aircraft for Three Analyses, Wet or Dry.

- If paid *After March 2nd for the* LeGros Clinic:

\$500 per Aircraft for Three Analyses, Wet or Dry.

Operation S.A.F.E Calibration Clinic Policy:

- Checks shall be made payable to **LAAA**.
- All who intend to participate **MUST ATTEND** or have a representative attend the safety meeting which will be held starting 6:30 Monday evening:
 - **March 2nd at the Jennings Airport office.**
- Wet testing is priority. Dry testing will be performed after all wet testing is completed.
- Slots are on a first come first served basis and will be issued upon the payment of registration.
- Registration provides one aircraft with one slot number.
- One slot number allows the aircraft **three** analyses.
- If a calibration problem cannot be corrected in three analyses the aircraft can receive one more slot number at no extra charge as time and attendances allows.
- While all aircraft are allowed to participate in the Operation S.A.F.E Calibration Clinic only aircraft belonging to operators who are members of the NAAA can be Operation S.A.F.E Certified.
- Calibrations will start at 7:30 am on all days weather permitting.
- Participating aircraft must come pre-filled with a minimum of 100 gallons of clean water. More water is recommended for high volume testing or if more test runs are desired or anticipated.

Operation S.A.F.E Calibration Clinic Rules:

- The aircraft’s spray system **MUST BE** clean and free of residual pesticides. Neutralizing the hopper and spray system is highly recommended.
- All airport rules and procedures must be followed.
- Aircraft may deviate from FAR part 91 only for that portion of flight necessary to accomplish the calibration passes.
- No passengers allowed in single seat occupancy aircraft.
- No aerobatics, unnecessary aircraft maneuvers, buzzing or any other horse play.
- No Alcohol during the Operation S.A.F.E Calibration Clinic event.
- The LAAA will provide an Air Boss who will be in charge of the safety and flow of the calibration clinic.
- The Air Boss will have the authority do dismiss anyone not following the Rules or Policies or who is deemed unsafe.
- The Operation S.A.F.E Analyst has the authority to deny certification to any aircraft that cannot satisfactorily pass the Dynamic Check.
